

O R I G I N

DESIGN IT.
WE MAKE IT.

THE BELIEF

Every garment carries a
brand's intent.
We turn that intent *to life*.

Bring a sketch, a tech pack, or just an idea — no finished
pattern required. From there, we make it real.

THE PARTNERSHIP

THE PARTNERSHIP

You bring the design.
We bring it to life.

YOU DESIGN IT

Your concept, your label, your story. A
drawing, a reference, a tech pack — at any
stage of readiness.

WE ORCHESTRATE

Pattern, prototype, fit, cut, sew, finish — to
finished goods.

THE MAKING

Six steps, one standard.

One partner, one line of responsibility — from first pattern to packed, finished goods.

01 • PATTERN**From spec to pattern**

We translate your sketch or tech pack into a production-ready pattern.

02 • SAMPLE & FIT**Prototype & fit**

A first sample, then fit development until the garment is right.

03 • CUTTING**Marker & cut**

Efficient markers, clean cutting, consistent panels.

04 • SEWING**Built to last**

Construction that holds — even seams, clean inside finishing.

05 • FINISHING**The details**

Pressing, trims, labelling and packing — your brand, presented well.

06 • QUALITY**Checked, twice**

In-line checks throughout, final inspection before it leaves.

ON THE FLOOR

Made in-house.

Every piece cut, sewn and finished on our own production line.

MATERIALS

Great design is the blueprint.

The right fabric is fundamental to your masterpiece. We help source and develop the right fabric for your product — by hand-feel, weight and end use.

QUALITY

06 · 07

QUALITY, BUILT IN

Checked, not claimed.

Quality isn't a stamp at the end — it's checked at every step, on every piece.

01

Measurement

Specs synchronised to a standard point of measure.

02

In-line checks

Consistent workmanship maintained throughout the line; any discrepancies detected early.

03

Final inspection

Critical processes, meticulously checked.

04

Honest feedback

If something's off, you hear it from us first.
